

Pardeep Kumar

Senior Mobile Application Developer · 9 Years Experience · Dubai, UAE
+971-52496-4239 · pkpardeep480@gmail.com · [LinkedIn](#) · [Github](#) · [Portfolio](#)

SUMMARY

Results-driven Senior Mobile Application Developer with 9 years of experience delivering production-grade cross-platform mobile applications for 1M+ users across beauty-tech, healthcare, and social media. Proven track record in performance engineering — crash-free rate from 76% to 99.4%, 71% app size reduction, 4.6x frame rate improvement. Experienced lead managing teams of 4–7 developers with deep expertise in React Native, TypeScript, Kotlin, Swift, WebRTC, and blockchain.

CORE COMPETENCIES

- React Native / TypeScript
- Performance Optimization
- Engineering Leadership
- WebRTC & Real-time Systems
- CI/CD & DevOps (Fastlane)
- Kotlin & Swift (Native)
- System & Modular Architecture
- Blockchain / Web3 (Polygon)
- Cross-platform Delivery
- E2E Testing (Maestro/Detox)
- Agile / Scrum
- Stakeholder Management

TECHNICAL SKILLS

Languages	TypeScript, JavaScript (ES6+), Kotlin, Swift, HTML5, CSS3
Mobile	React Native, Kotlin Multiplatform (KMP), Jetpack Compose, SwiftUI
Web	React.js, Next.js, Redux Toolkit, Zustand, Tailwind CSS
Architecture	MVVM, Clean Architecture, Modular Architecture, System Design, Design Patterns
Testing	Maestro (E2E), Jest, React Testing Library, Detox
DevOps	Fastlane (CI/CD), GitHub Actions, Firebase, CodePush, Git
Databases	SQLite, Room, Realm, AsyncStorage, MMKV
Specialisms	WebRTC, XMPP, Blockchain/Polygon, Facial Recognition, NFT Platforms

EXPERIENCE

Senior Mobile Application Developer

May 2024 – Present

KPTAC Technologies · Dubai, UAE

Products: Android · iOS

- Built a **Kotlin-based Android application** on EDC devices enabling seamless integration with POS systems for **real-time payment processing**; currently being evaluated by one of the largest payment processing companies in the **MEA region** for potential merchant network rollout.
- Architected **2050-Anonymous Network** from scratch — cross-platform anonymous social app with React Native, Redux Toolkit, TypeScript; **99.3% crash-free rate**, **2K–3K DAUs** in pre-launch.
- Designed **scalable modular architecture** for rapid feature iteration across iOS and Android.
- Engineered native modules: **real-time camera filters**, video editing, **WebRTC video calling**, **E2E encrypted chat**.

- Led team of **6–7 engineers** — sprint planning, code reviews, mentorship, on-time delivery.
- Built CI/CD pipelines with Fastlane, cutting manual release effort by **70%**.
- Introduced Maestro E2E testing, reducing post-production defects by **40%**.
- Primary technical liaison with product stakeholders, translating requirements into engineering specs.

Senior Software Engineer

May 2019 – May 2024

EkAnek Networks (Foxy) · Abu Dhabi, UAE

Products: iOS · Android · Web

- Improved crash-free rate from **76.3% to 99.4% (23.1% absolute gain)**, directly reducing churn.
- Reduced Android app size from **42MB to 12MB (71%)** through asset optimization, code splitting, ProGuard.
- Resolved re-render bottlenecks, boosting UI frame rate from **12 FPS to 55 FPS (4.6x improvement)**.
- Built **Foxy Live** — real-time video calling with facial recognition, **45–65 influencer onboardings daily**.
- Optimized acquisition funnels, contributing to **34% improvement** in conversion metrics.
- Delivered **12% app load time improvement**, boosting retention and session duration.
- Engineered **NFT marketplace on Polygon blockchain**, eliminating **\$10K/month** third-party spend.
- Built retail tech for physical store launch, enabling **~90 daily orders** from day one.
- Mentored **4 interns to full-time**; led code reviews and releases in Agile/Scrum.

Lead Android Developer

Apr 2016 – Mar 2019

MediMetry · Haryana, India

- Led telemedicine app UI/UX, reducing bounce rate by **22.6%** through A/B testing.
- Built in-house **WebRTC + XMPP video calling** handling **50+ daily consultations**.
- Designed UI layer and REST API integration for **multi-clinic EMR system**.
- Managed modules, mentored junior engineers, optimized delivery for on-time releases.

EDUCATION

B.Tech, Information Technology — Punjab Technical University, 2015

Diploma, Information Technology — Punjab Technical University, 2009

KEY ACHIEVEMENTS

99.4% Crash-Free Rate

From 76.3% — 23.1% gain

4.6x Frame Rate Boost

12 FPS → 55 FPS

1M+ Users Served

Foxy platform

71% App Size Reduction

42MB → 12MB

\$120K/Year Saved

Polygon NFT platform

40% Fewer Defects

Maestro E2E testing
